### *Tsiribihina River*

The **Mahajilo** and **Mania Rivers** crash and tumble out of the highlands, joining near the town of **Miandrivazo** to form western Madagascar's biggest river the tranquil Tsiribihina. On its way to the [\*Mozambique Channel\*](#), the Tsiribihina cuts through the limestone Bemaraha Plateau in a series of forested gorges, rich in endemic flora and fauna. [\*Photos\*](#)

On our journey downstream we stop for forest walks, village visits and exploring the amazing side streams coming off the plateau with picturesque waterfalls, blue-water grottos, and travertine chutes.
